BANK MATTERS If, main dull. Money continues to be in excess of wants. Is go to the banks and get it. They will be to the banks and get it. They will be to the banks and get it. he g'ad to see bim. If more than one perted as follows: c' them knows he is coming, he will be wait-d upon and invited to berrow. The amount of good resture of this kind that Exp'ts three F'y 195621 117.965 is prevalent just now, is beyond calculation. The berrower, in return for the courteries that await him, will please, when calling for what money he wants. to take a piece of paper with him; the banks like paper, and want it very much. They are a little choice in their selection, it is true, and are particular about it being gilt-edged, very much gilt, in fact. Exchange was in plenty ing scarcity. The rate is i discount buying on New York, i discount on New Orleans; selling on both at par, with a moderate inquiry for it. Gold to New York in Gold to New York, in the rate is properties. York was again nigher, mostly 1135; it once in the morning reached IIS . Here brokers were offering 1121@115. The New York Tribune, of Tuesday, remask: "The possible resumption of specie shipments and the consequent firmness of sterling have given more confidence to gold rurchases." The New York Times, of Wednesday, reports that there was more than usual ectivity in the gold speculation, and adds: The strength of the gold market to-day was ous to the payment into the treasury of \$2,000,000 gold in payment for the new five per cent. ands. This will be disbursed in due course as the catled bonds, which the syndicate were unable to secure, are presented to the treasury for redempion." The Times also says the demand for money is light from all classes of a demand from New Orleans, to which borrowers, compared with the amount of capital resking employment. The St. Louis Globe, of Thursday, says money is beginning to accumulate with timited out for it; ex-t-ru exchange was 75c(a) \$1 a thousand between banks; at the counter, par. The Chicago Tribiane, of Wednesday, reports a dull financial situ-ation, a moderate call for loans with little surplus in the banks; New York exchange at 502 discount per thousand between banks. The treasury has now on hand \$14,0 0 000 in nilver coin; as issue of \$30,000,000 will be sufficient to allow all the "chicken-stuff" currency to be witherswa and burned. Our local scrips were without any novel feature yesterday, but are firm at quotations. There was an inquiry about gas stock; it was offering at 95. Charleston railroad stock was also asked after, and a lot was found accessible at about 7½ or 8 cents; a transaction may probably result.

THE COITON MARK T WAS Egain "sick" yez,erday. Kang cotton is faring as hard as some of her kings and emperate have fered anoe the American revotion interfer d with the monarchical trade. New York revised its figures, and low sted quotations on all qualities exer, middling, while the tone of the m'arket was duli and heavy. Liverpool was tending downward. These felegraphic statements shook all the confidence out of curmarket. It was thought principal buyers, mostly taking medium reports: "Since our last there has been nothing whatever reported sold for exseen filled, and shippers, in view of the wide difference between our market and Liverpool, not caring to risk forwarding any goods for which a place has not alchecked in part by the continued disappointment over the Liverpool market, which fat's entirely to show any nerve, and to-day both public and private nocounts were slack. The receipts, howcontinues to come to hand at the present rate, and the general interior movement shows such full figures, it will be difficult to infuse much elamina into values." Quotations at the Memphis cotton exchange were as follows: Yesterday Day before.
